Future of Diabetes, Hypertension  
and Metabolic syndrome:  
Innovations and Research  
Outlook

Diabetes 2019

## Future Shape of Diabetes, Hypertension and Metabolic syndrome: Accessions, Organizations & Research

Conference Dedicated to Innovate Solution to the Public Health Challenges

Your single Destination to reach Largest Assemblage of participants from Diabetes Community

Opportunity beyond any Comparison to Attend & Network

Experience the Global Ambiance with Researchers with Similar Significance

Make New Associations and Fostering Potential Partnerships

Learning & Knowledge in a Single Package

Worldwide Acknowledgement to your Research Profile

Explore the best in Cutting Edge Research

Learn Beyond your Field of Interest

Professional Development to Elevate your Knowledge and Skills

## Diabetes Congress 2019

### Speakers Representation from 50+ Countries

1 Conference | 2 Days | International Conference on Diabetes, Hypertension and Metabolic syndrome

15 Keynote Talks | 75 Plenary Speakers | 16 Interactive sessions

Symposia | Workshops | Best Poster Award

200 Attendees | 50 Professors | and many more . . .

## Greetings!

Welcome to most exciting and fascinating London, UK!

Within this splendid setting, we plan to deliver a conference that will exceed your expectations.

During this year's Conference, we hope that you will seize the opportunity to rekindle ongoing connections and spark new ones with your colleagues from around the globe. It's with great pleasure and great honor to invite you to the "**International Conference on Diabetes, Hypertension and Metabolic syndrome**" scheduled during **Mar 07-08, 2019 at London, UK**.

The Conference will be organized around the theme "**New Insights in Prevention and Management of Diabetes Through Intervening Technologies**"

Diabetes 2019 anticipates more than 500 participants around the globe to experience thought provoking Keynote lectures, Oral & Poster presentations. This year conference will offer ample opportunities for all stakeholders working on Diabetes, Hypertension and Metabolic syndrome to expose their research work.

Our conference aims to gather the Researchers, principal investigators, experts, medicinal services specialists and researchers working in Diabetes Institute both academic and health care industry, Business Delegates, Scientists and students across the globe to provide an international forum for the dissemination of original research results, new ideas and practical development experiences.

This year's Conference program, coupled with the Business Opportunity Exchange, is an event you can't afford to miss!.

Sincerely

Medalin Lesli

Program Manager | Diabetes Congress 2019

Organizing Committee

WELCOME MESSAGE

We are Delighted to organize a Conference that is dedicated to Innovate Solution to the Public Health Challenges, one conference which future the shape of Diabetes and Metabolic syndrome. Our Conference will organize and allow to access the global researchers around the world in a single platform. Diabetes 2019 will provide a great opportunity beyond any comparison to attend and network with Diabetes and Metabolic syndrome's Community.

Join us at our 2019 edition of Diabetes and Metabolic syndrome to Experience the Global Ambiance with the Researchers who work with similar significance of research. Diabetes 2019 will help you to get answers to all your queries related to your research work and also it creates an great opportunity to make new associations and also helps to foster potential partnerships. Diabetes 2019 will be an great platform for you to create long lasting relationship with the fellow researchers from Diabetes, Hypertension and Metabolic syndrome Community.

Get worldwide acknowledgement to your research profile where more than 55000 Visitors who analyzed our conference website to attend and submit proposals of their research work. Where this was recorded as the highest number of Visitors from both, developed and developing nations. While we penetrate the study of visitor, navigation, and traffic patterns to determine the success of our conference website majority amount of traffic we receive from cities like New York, London, Valencia, Amsterdam, Madrid, Barcelona, Athens, Sydney, Paris, Frankfurt, Tokyo, Osaka, Melbourne, Moscow and Vienna.

Diabetes 2019 website is attracting 56000+ Diabetes Researchers, Diabetes Faculties and pediatrician, Endocrinology Researchers, Endocrinology & Metabolic syndrome students, Scientists, Pharmacists, Research scientists, Diabetes Organizations and societies, Pharmaceutical companies, Endocrinology & Diabetes Associations and Societies, Business Entrepreneurs, Professors and Students..

This unique opportunity that we extend to our speakers and attendees is not being offered by any other conference organizers. Through this the abstracts and research profiles of our speakers and organizing committee members getting global visibility which is an additional feature that you would be receiving in addition to networking opportunities before, during and after the conference.

## Diabetes 2019 salient features

- Meet Academia and Industry visionaries to get inspired
- Expand your knowledge and find solutions to problems
- Knowledge, Benchmarking and Networking offered at one place
- Forge connections and for global networking
- Highly Organized and Structured Scientific programs
- Poster presentations and world class exhibitions
- Participation by Stalwarts from various international societies
- Internationally renowned speakers and scientists representation
- Career guidance for early career researchers and students
- Interesting scientific deliberations and discussions
- Perfect platform for Global Networking

## THURSDAY, March 07

08:00-09:00

Registration

09:00-09:30

Opening Ceremony

09:30-10:15

Keynote Forum – 01

10:15-11:00

Keynote Forum – 02

11:00-11:30

Networking Reception and Refreshment

11:30-12:15

Keynote Forum – 03

12:15-12:45

Keynote Forum – 04

12:45-13:15

Business Opportunity Exchange & Lunch

13:15-15:00

Plenary Sessions – 01

15:00-16:00

Parallel Session 01-Hall 1

General Session 02-Hall 2

Parallel Session 03-Hall 3

16:00-16:30

Networking Reception and Refreshment

16:30-18:00

Concurrent Work shops

## FRIDAY, MARCH 08

09:00-09:30

Registration

09:30-10:15

Keynote Forum – 01

10:15-11:00

Keynote Forum – 02

11:00-11:30

Networking Reception and Refreshment

11:30-12:15

Keynote Forum – 03

12:15-12:45

Concurrent Work shops

12:45-13:15

Business Opportunity Exchange & Lunch

13:15-15:00

Plenary Sessions – 02

15:00-16:00

Parallel Session 04-Hall 1

General Session 05-Hall 2

Parallel Session 06-Hall 3

16:00-16:30

Networking Reception and Refreshment

16:30-18:00

Awards Banquet and  
Closing Ceremony

## Purpose

With members from around the world focused on learning about Diabetes, Hypertension and Metabolic syndrome, this is your single best opportunity to reach the largest assemblage of participants from the scientific community.

Conduct demonstrations, distribute information, meet with eminent personalities, and make a splash with latest research innovations at this outstanding event.

## Goals

- The conference program emphasizes evidence-based practice, educational innovation, practical application, and peer to peer networking and collaboration.
- The goals of the conference is to provide a transformative professional development experience through
- Bringing together the world's scientific experts to catalyze and advance scientific knowledge about Diabetes, Hypertension and Metabolic syndrome to present the most recent research findings, and promote and enhance scientific collaborations around the world.
- Bringing together community leaders, scientists, and policy leaders to promote and enhance programmatic collaborations to more effectively address Diabetics and Metabolic disorder problems and overcome barriers that limit access to care and services.

## Objectives

- After participating in this meeting, attendees should be able to
- Discuss emerging issues in Diabetes, Hypertension and Metabolic syndrome's
- Discuss and apply recent research findings related to Diabetes, Hypertension and Metabolic syndrome
- Disseminate the diverse voices of breakthrough innovators with visionary and practical solutions.

## Who should attend?

Endocrinology & Diabetes Scientists, Psychiatrists, Diabetic Researchers, Diabetes and Immunology Faculties, Pharmacists, Medical Colleges, Diabetes Organizations and societies, Business delegates, CEO's and R&D Heads from Industries, Directors, Industrial Leaders, Pharmaceutical companies, Hypertension Societies and Associations, Training Institutes, Professors and Students from Academia in the study of Diabetes, Hypertension and Metabolic syndrome and researchers who utilize novel techniques and knowledge in diagnosing and treating brain and neuronal disorders.

## CME & CPD

Diabetes Congress 2019 has been planned and implemented in accordance with the accreditation requirements and policies of the Accreditation Committee

The live format of this educational activity will be accredited with CME and CPD Credits.

## Diverse Action-Oriented Programming & Networking

**EXPERIENCE:** Inspiring change around the country and world, growing a revolution from the heart of Brain and Neuro research.

**EXPLORE** the forefront of breakthrough ideas and models in electrifying morning keynote talks, featuring luminaries and “the greatest people you’ve never heard of.”

**PARTICIPATE** in afternoon panels and workshops/symposiums on diverse topics of Dementia, Neurological and Brain disorders, Alzheimer’s and more!

**NETWORK** with a community of leadership – dynamic change makers from around the country and world, or from your region, to develop important professional and personal relationships.

**SHARE** your insights and learning at the conference in participatory and experiential workshops.

**DISCOVER** powerful opportunities and strategies for creating and engaging with progressive change in your work, life and community.

**CELEBRATE** how great a difference one person can make, and how building community amplifies that change.

## Salient Features

- Robust on-line publicity for all the speakers and organizing committee members
- Career Guidance Workshops for students and early career researchers
- Accepted Abstracts will be published in various indexed journals
- Accepted abstracts will be labeled with a Digital Object Identification Number (DOI) provided by Cross Ref
- Creation of speakers and abstracts pages in Google
- Opportunity to publish full Manuscripts in our Open Access Journals

## Scientific Sessions

Diabetes, Hypertension and Metabolic syndrome

Insulin and Diabetes

Diabetic Complications

Pediatric Diabetes

Diabetic Retinopathy

Glucose monitoring Devices

Hypertension and Cardiovascular diseases

Renal Hypertension

Hypertension in Pregnancy

Clinical Hypertension

Management of Metabolic syndrome

Case studies on Metabolic syndrome

Clinical Trials: Diabetes, Hypertension and Metabolic syndrome

## Diabetes Congress 2019 Outlook

Explore the best in Cutting edge Research

Change to learn beyond your field of Interest

Keynote sessions by worlds most eminent and distinguished researchers

Conference Participation Inspires, Rejuvenate and Energize participants

Diabetes 2019 an unique platform to increase your reputation within the Medical Sector

Learning and Knowledge in a single package

Speaker's representation from 50+ Countries

1 Conference | 2 Days

In 2014 around 422 million adults were living with diabetes, compared to 108 million in 1980. The worldwide predominance of diabetes has almost doubled since 1980, ascending from 4.7% to 8.5% in the adult populace. Diabetes has taken numerous lives, crudely 1.5 million deaths in the year of 2012. Higher blood glucose has taken an extra 2.2 million deaths on that year. Diabetes expands the dangers of cardiovascular and other metabolic illnesses. Mostly middle-aged people are affected by diabetes and other diabetes-related metabolic diseases. Around 43% of these 3.7 million deaths happen before the age of 70 years. The risk of premature death is higher in low and middle-income countries than in high-income countries. Because sophisticated laboratory test is usually required to distinguish between type 1 and type 2. Globally, high blood glucose causes about 7% of deaths among men age between 20 to 69 and 8% among women aged between 20 to 69.

The risk of heart attack, stroke, kidney failure, leg amputation, vision loss and nerve damage are higher in the diabetes patients. Diabetes in pregnancy can leads to autism. It also may increase the risk of fetal death and other complications.

The direct annual cost of diabetes to the world is more than USD 827 billion. According to a recent survey of IDF (International Diabetes Federation), the diabetes health-care spending on diabetes was more than triple over the period 2003 to 2013. The market of the Diabetes Medicare and the number of the diabetes people increase proportionally.

Recent studies assess that the losses in GDP worldwide will be total USD 1.7 trillion from 2011 to 2030, including both the direct and indirect costs of diabetes This loss will comprising USD 900 billion for high-income countries and USD 800 billion for low- and middle-income countries.

According to the market researchers, the world diabetes drugs market stood at a market valuation of around USD 43.1 billion in the year 2016 and expect to rise to USD 58.4 by the end of 2025. The compound annual growth rate for diabetes market was 3.6% over the period of 2017 to 2025.

#### Diabetes in the UK

Diabetes is a major problem in the United Kingdom, almost 3.7 million people living with a diagnosis of the condition in the UK. And the number of people diagnosed with Type 1 or Type 2 diabetes has increased by almost 0.1 million since last year from 3.6 million to 3.7 million. An about 90% of total diabetes affected patients are Type 2 and rest 10% is Type 1. In the year 2016 and 2017, the total number of Diabetes patients in England was 3.1 million followed by the Scotland 0.3 million, Wales 0.2 million and Northern Ireland 0.1 million. Approximately 12.3 million people of UK have a higher blood glucose level and Pre-diabetes symptoms. The West Yorkshire city of Bradford has the higher number of the diabetes people, while Richmond in London has the lowest number of the diabetes people (approx. 3.6%). There is a large healthcare and treatment industry has built up around it the UK. 11 largest pharmaceutical and diagnostic companies producing diabetes-related products or the products that will enhance the speed of diabetes research. Some of the companies conduct research and development activities and market analysis to provide the best medicines to the diabetes Patients.

#### Target Audience:

- Endocrinology & Diabetes students, Scientists
- Endocrinology & Diabetes Researchers
- Endocrinology & Diabetes Faculty
- Medical Colleges
- Endocrinology & Diabetes Associations and Societies
- Business Entrepreneurs
- Manufacturing Medical Devices Companies
- Hypertension Societies and Associations
- Hypertension or Cardiology and related departments
- Hypertension institutes
- Training Institutes
- Research students
- Pharma Companies

*“London is like a smoky pearl set in a circle of emeralds”*

London is city of Enchantment and hopes. Being the Capital of England with large metropolitan area in United Kingdom, comprises 13% of UK population. The Population of London has touched 8.6 million with more than 300 Languages in Usage. The Climatic condition of the city is influenced by ocean; hence it is cool, humid and rainy. Although it rains quite often, it usually drizzle which will not interrupt the sightseeing.

London bears the largest public transport network in the world and known to be integrated public transport which helps to switch between cities easily. The Iconic Transport system of London is recognized worldwide with its red bus, black cabs and tube trains.

One of the world’s most visited cities, London has something for everyone: from history and culture to fine food and good times. London Located on Thames valley has Eclectic tourist attractions. The Most common and famous tourist attraction is Buckingham Palace, Westminster, Tower of London, London eye, Tate Modern, Madame Tussauds, Kensington Palace, etc... The panoramic view of London Can be ogled from The Shard –a 95 stories Skyscraper and western Europe’s tallest building.

London is also a home for many museums and galleries. Being Colossal, the city is blend of Classic and contemporary. The aura of the London can’t be replaced by any city.

## UK's Climate:

In the summer, it can be as hot as 32°C(90°F) but mostly the temperature only reaches 26°C. The average high temperature in London is around 21°C(70°F) and the average low is around 12°C(51°F).

## London- Modern city:

London is the modern city as well. It possesses the elegant and stylish features in Mayfair, Hampstead, Knightsbridge, and Chelsea. It also provides the distinct features in Shoreditch, Camden, and Dalston. Moreover, its vast business and the educational center provides the professionals and artists with too many opportunities.

**Currency:** Pound (£, GBP)

## Transport within London:

**Train:** Public transport system in UK is excellent. UK's rail network is comfortable, reliable and fast. The main rail website offers excellent information on timetables, services and discounts. The quality of service offered by the rail network makes it far more appealing than bus links.

Public transport services are dominated by the executive agency for transport in London: Transport for London (TfL). TfL controls the majority of public transport, including the Underground, Buses, Tram-link, the Docklands Light Railway, London River Services and the London Overground.

**Air links:** There are 471 airports and airfields in the UK, of which 334 are paved. There are also 11 heliports.

Heathrow Airport is the largest airport by traffic volume in the UK, is owned by Heathrow Airport Holdings, and is one of the world's busiest airports. Gatwick Airport, the second largest, and is owned by Global Infrastructure Partners. The third largest is Manchester Airport, in Manchester, which is run by Manchester Airport Group, which also owns various other airports.

Other major airports include Stansted Airport in Essex and London Luton Airport in Bedfordshire, both about 30 miles (48 km) north of London, Birmingham Airport in Solihull, Newcastle Airport, Liverpool Airport, and Bristol Airport.

Outside England, Cardiff Airport, Edinburgh Airport and Belfast International Airport, are the busiest airports serving Wales, Scotland and Northern Ireland respectively.

The largest airline in the United Kingdom by passenger traffic is easyJet, whereas British Airways is largest by fleet size and international destinations. Others include Flybe, BMI Regional, Jet2, TUI Airways and Virgin Atlantic.

**Public Transport:** The London Bus network is extensive, with over 6,800 scheduled services every weekday carrying about six million passengers on over 700 different routes making it one of the most extensive bus systems in the world and by far the largest in Europe. Catering mainly for local journeys, it carries more passengers than the Underground. In addition to this extensive daytime system, a 100-route night bus service is also operated, providing a 24-hour service. East London Transit is a partially segregated Bus Rapid Transit system

**Cycling:** Over one million Londoners own bicycles but as of 2008 only around 2 per cent of all journeys in London are made by bike: this compares poorly to other major European cities such as Berlin (5 per cent), Munich (12 per cent), and Amsterdam (55 per cent) and Copenhagen (36 per cent). Nevertheless, this is an 83 per cent increase compared to that in 2000. There are currently an estimated 480,000 cycle journeys each day in the capital.

The Santander Cycles (formerly Barclays Cycle Hire) scheme, launched 30 July 2010, aims to provide 6,000 bicycles for rental. Bikes are available at a number of docking stations in central London.

**Getting There:** Heathrow Airport, London's main hub, is also one of the world's busiest airports, with 75.7 million passengers passing through in 2017. Find out about cheap flights to London.

London is the focal point of the British railway network, with 18 major stations providing a combination of suburban, intercity, airport and international services; 14 of these stations are termini and 4 are through stations and two others are both. Most areas of the city not served by the Underground or DLR are served by suburban heavy rail services into one of these stations. These suburban rail services are not part of Transport for London (apart from London Overground and TfL Rail) but are owned and operated by a number of private rail firms and use TfL's Oyster card system.

## Accompany Partners' Policy:

We respectfully remind you that partners accompanying delegates/speakers are not eligible to attend conference sessions and do not qualify for refreshments and lunches during the day unless they have registered.

Any partner wishing to attend events not previously selected and paid for in his or her registration may do so at the Conference Registration desk.

We would be pleased to accommodate any requests where possible.

## Registration and Accommodation

### Policy:

Registration and accommodation changes will not be accepted unless made in writing.

Changes made within 14 days of the event may incur costs due to specific hotel and venue policies

### Cancellation Policy:

Registration cancellations will not be accepted unless made in writing.

Cancellations request made before 7 January 2019 will be refunded less 50% of the Conference Registration fee, to cover administration costs.

No registration refunds will be processed after this date, however, substitute delegates are welcome.
